

## SUPERVISORS PETITIONED FOR PAVING

A petition of Chris Wansted for the improvement of certain streets in the vicinity of San Bruno avenue and the county line, above South San Francisco, met with the favorable response of the board of supervisors, in session Monday in Redwood City, when County Surveyor George Kneese was instructed to proceed with plans under the 1921 county road act.

Wansted's petition called for the paving of Schwerin, Walbridge, Acacia, and Orienta streets to the county line, with concrete curbing, 2-inch Durite asphaltic concrete surface, and 4-inch macadam foundation.

A communication was received from M. Montgomery of Menlo Park relative to additional street lights. The petition asked for two more lights on Fremont avenue, which were granted by the board.

The Semper Virens Club of California sent a letter to the board regarding the proposed plan to build a coast road from Big Basin to Pescadero for the protection of campers in the event of fire. The letter was read at the meeting of the supervisors. The club requested an early reply, as the proposition is to be taken before the next legislature.

The Municipal Properties Company of San Francisco asked, by letter, for permission to erect a highway advertising sign at Holly street, San Carlos. Permission was granted.

J. Eubanks, head of the county farm, asked for bath tubs in the isolation ward, but the supervisors, upon learning that the ward had not been occupied for the past two years, held that the installation of tubs at this time would not be necessary.

## SCHOOL BOND ELECTION PLANS BEING MADE

Congestion in High and Grammar Schools Causes Need for New Buildings

Legal procedure for the calling of a bond election for the purpose of securing funds for the erection of new school buildings in South San Francisco was mapped out at a conference in Redwood City Monday afternoon attended by County Superintendent of Schools Ray Cloud, District Attorney Stuart and W. H. Dinning of the local school trustees.

Crowded conditions in the Grand avenue school make necessary the erection of another building in the near future, members of the trustees declare. The same congestion occurs in the high school where it is planned to build a combined manual, trade and gymnasium building with domestic science rooms above. The rooms being used in the main building for these subjects will be made over into class rooms.

Plans for the school extension program are still incomplete. They will be made public as soon as they are completed.

## FIVE MEN WILL HANDLE TRAFFIC CASE FOR CITY

Phil Thompson to Act as City's Expert in Through Car Fight

A postponement of the hearing before the railroad commission relative to through street car service from San Francisco, slated to be held here December 30 will be sought by City Attorney Davis, it was announced Tuesday. After a conference of the committee of five appointed last Friday evening it was decided to wait until every available bit of data could be collected rather than present an incomplete petition on the day fixed.

John F. Davis, Phil R. Thompson, Harry A. Cavassa, John A. Williams, and Mayor H. F. McNellis were elected a committee of five to frame the city's campaign to secure through street car service, at meeting of the committee held Friday evening in the city hall.

City Attorney Davis outlined the meeting held in San Francisco with Colonel Black, of the Market Street Railways, last Wednesday at 11 o'clock, which was attended by representatives of the city and city organizations. Black told the committee his corporation hasn't anything to offer in the way of improved service, Davis told the committee Friday night.

It was pointed out that street railways are poor paying propositions because of automobile competition. Black is reported to have said the municipal railways were interfering seriously with the conduct of the Market Street Railways. The cost of operating the Daly City line through to Leipsic was placed at \$150 a day which was believed to be more than the traffic would warrant.

The need for exact data was stressed by Thompson, Supervisor Thomas L. Hickey, John A. Williams, of the Manufacturers' Association, and the Rev. Father James J. Connelley.

City Attorney Davis pointed out that the hearing, dated December 30 had been fixed because Commissioner Irving Martin, who is to hear the petition, will retire from the commission after January 1. Whether Martin will give the decision or turn over the evidence to his successor is to be the determining factor, it is believed, in whether the petition is to be heard December 30 or a postponement asked for.

The committee named Friday night is now working on plans for the hearing and it will determine procedure.

Among the persons present at the committee meeting Friday were: Mayor H. F. McNellis, Trustees Carl Blank and Hugh McCaffrey, Judge Ed Farrell, City Attorney John F. Davis, John A. Williams, Phil R. Thompson, Thomas L. Hickey, The Rev. Father Moran, B. H. Truax, L. G. Hardy, A. C. Buehler, E. E. Cunningham.

## BOYS ARE SENT TO REFORM SCHOOL FOLLOWING THEFT

Following their confessions to having stolen valuable aluminum patents from the American Brake Shoe Company on Thanksgiving Day while the plant was closed, two local boys were committed to institutions of correction by Judge Buck on Monday.

George Carrero, 14, of 11 Aspen avenue, was sent to the Whittier Reformatory School, and Paul Venturini, 13, of 615A Cypress avenue, was committed to St. Vincent's Orphan Asylum, near San Rafael.

The boys were taken into custody Monday, November 24, by Chief of Police Belloni after Carrero had played hooky from school, stolen a Ford touring car and wrecked it. Subsequent quizzing led to a confession that he and Venturini had taken the patents from the brake shoe plant.

The models stolen were valued at \$150.

## ARREST THREE IN CHASE TO SANTA CLARA

Hemmed in by officers of the law, all avenues of escape cut off, three South San Francisco men were brought to the Redwood City jail last Thursday morning by Sheriff T. C. McGovern after their arrest in Santa Clara on the charge of taking an automobile without the owner's consent.

Shortly after midnight Wednesday night Thomas Foley, 23, John Robinson, 26, and Alexander M. Reid, 24, steelworkers, are alleged to have taken the big McFarland automobile, belonging to Posey Lemons. At a high rate of speed the trio passed down the peninsula, officers said. By telephone the sheriff's office at San Jose was notified, and officers from there headed north to meet the automobile. Meanwhile Sheriff McGovern and Deputy Sheriff J. J. Jara sped south after the three men. Officers Condon and Raymond of Santa Clara county stopped the machine a few minutes before Sheriff McGovern arrived. The latter took the three men back to the San Mateo county jail, from which place they were taken to South San Francisco Friday by City Marshal Louis Belloni.

## MAN KILLED BY CAR WHILE GOING TO SEE MOTHER

Employee of Veterans' Hospital Dies Under Street Car Near Lawndale

On his way to a delayed Thanksgiving dinner with his mother in San Francisco, Harry Peck, 24, was instantly killed Saturday night when struck by a street car near Lawndale.

Peck was an employee of the United States Veterans' hospital at Menlo Park and was a cripple. He had sustained a crushed leg about a year ago, when struck by a street car in a similar accident. The trial of a damage suit in this matter was set to come up in a few weeks in the Superior Court, Redwood City.

Peck and Robert Christy, another employee of the Menlo Park hospital, started out in the latter's machine last Saturday night for San Francisco, where Peck was to enjoy dinner with his mother, who had postponed her Thanksgiving feast until her son could be on hand.

Near Cypress Lawn Cemetery their automobile lost a wheel and Christy went in search of a garage. While in the Colma garage, he heard a passing motorist, who had stopped for gas, tell of an accident down the road in which a man had been struck by a street car and killed. He returned to the car with a garage employee and found that Peck had been taken to the South San Francisco General Hospital. It is believed he wandered out on the tracks and became confused when a street car bore down on him.

The remains were taken to the undertaking parlors of S. Nieri at 1415 Broadway, where an inquest was held Monday. Burial was made Tuesday.

## EXTENSION OF BUSINESS DISTRICT IS CONSIDERED BY BOARD OF TRUSTEES

Linden Avenue to San Bruno Road Thence to City Limits Proposed Larger Business Zone; May Rename San Bruno Avenue.

Extension of the business district from its present limit of Pine street to the city limits was proposed at the regular session of the board of trustees in the city hall Monday evening. After considerable discussion of the matter was referred to City Attorney John F. Davis, who will advise procedure in accordance with the present zoning, building, and fire ordinances. The question of extending the business area is likely to be developed in an adjourned meeting of the trustees next Monday, when several ordinances will be considered.

## Mayor of Lawndale Addresses Board

Mayor Jensen, of the newly created municipality of Lawndale, appeared before the board to urge that the name of San Bruno avenue, now applied to the highway which extends through Colma, Daly City, Lawndale, and behind the cemeteries, and which will enter this city as the Paradise Valley road, be changed to Hillside Drive. He pointed out the fact that there is another San Bruno road entering South San Francisco, and this caused a conflict of identity. Action has been taken by the Daly City and Lawndale trustees endorsing the change, and the county supervisors have also acted in the matter. Jensen stated.

City Attorney Davis was ordered to examine the situation with a view to endorsement by the board.

On September 26 a jury in the local court gave a verdict in favor of the defendants, but recommended that they pay the bills incident to the injuries and death of young Martini.

## Advices Against Purchase of Reflector

City Marshal Belloni advised the board against the purchase of a reflector for the corner of Grand avenue extension near Leipsic on account of the cost. He advised the moving of a light now several feet removed from the corner instead.

Building Inspector Edgar H. Lewis reported that no repairs had been made on the city hall roof pending the coming of the original contractor. The building, he said, had leaked since its erection in 1920, and he gave the opinion that the original contractor should do the repairing.

## AN INDEPENDENT BATTLE

**Data and Money Are Needed in Fight That Will Be Waged for Through Street Car Service**

The city will have to battle if through car service to San Francisco is to be secured. Indications are that the Market Street Railway will oppose the city's petition on the ground that the revenues will not be increased sufficiently to care for the expense of through service. There seems to be no inclination to consider the future that faces this city nor to realize that the present street car service is obstructing growth.

The city's committee of twenty discussed the situation last Friday evening and decided to ask for a postponement of the hearing before the railroad commission from December 30 to some date in early spring, so that a complete case may be presented.

In the meantime there are data to be collected and money to be raised to pay the experts who must be hired to prepare the city's case. Interest yourself in the coming battle. It has all the earmarks of being a good one.

## CROWDED SCHOOLS

**Need for New Buildings in Both High and Grammar School Plants Recognized by Trustees**

New school buildings are needed. The grammar school on Grand avenue is frightfully overcrowded, although both the seventh and eighth grades are housed at the high school. There, in addition to those two grades, classrooms for the general course, manual training, domestic science and gymnastics are all housed under one roof, and that roof is not a very large one.

The trustees have been working on building plans for some time. A bond election is proposed. Opposition to bonding for new school buildings should not be very great at this time.

Anyone who feels inclined to oppose the building of new schools would do well to visit either the grammar or high school and ask to be shown through the plants during school hours.

## CALIFORNIA'S VOTE

**This State's Percentage of Ballots Cast and the Gains in Electoral Activity Compare Favorably With the National Record**

California citizens who were disappointed in the state's failure (in common with all other states) to secure anything approaching a 100 per cent vote of all registered electors at the presidential election will find comfort, perhaps, in the comparisons which a study of the statistics of the registration and the vote in 1920 and in 1924 makes possible. The statistics for this year are not wholly complete, being based on returns as of November 17, but are considered to be fairly indicative.

Four years ago California, with a registration of 1,928,247, scored a vote of 943,463, or 48.9 per cent. The national figures then were: 54,165,907 registrants and 26,646,273 voters, or 49.1 per cent. This year the record was as follows:

California: 2,164,020 registrants; 1,271,241 voters, or 58.7 per cent. The nation: 56,941,584 registrants; 30,093,232 voters, or 52.8 per cent.

California's percentage of the registered vote cast was not only almost 6 per cent higher than the national percentage in this election, but the state's gain of 10 per cent this year over its percentage of votes cast four years ago is above the national average gain for the same period.

It is interesting to note also that only 12 states exceeded California in percentage of votes cast, and that only five states exceeded California's record in point of number of votes cast in the 1924 election.

The national gain in registration and in votes cast this year is considered a triumph to the widespread "get-out-the-vote" campaign which was conducted on a non-partisan basis.

According to political dopesters, there is no certainty that the governor's committee of nine will recommend the state's building of the Bayshore highway or any other part of the program of road-construction which the highway commission is advocating with the solid backing of the eleven bay counties. All of which bears out the recent statements of Harvey M. Toy, chairman of the California State Highway Commission, that the achievement of this road-building program means first of all a hard fight, and possibly a double fight—once before the committee of nine, and later before the state legislature.

## DRESSING THE INDUSTRIAL ZONE

**New Factory Sign Helps to Identify Manufacturing District and Boosts the City**

So far as the passing motorist or train tourist knows, South San Francisco's industrial zone is merely a conglomeration of large and small sheds, cast off machinery and odds and ends that collect in every backyard. At least, the part of the zone along the railway right of way, visible also from the San Bruno road, gives that impression.

Rather, it did until this week, when one of the concerns in that area repainted the skeleton sign on the top of its factory with glowing red paint, and installed flood lights below it. The effect produced is one of molten steel and the sign is beautifully silhouetted against the sky.

The advantages of such a sign are twofold. It serves to identify the plant to the passer-by and to advertise the business. Likewise it benefits South San Francisco, for the reader of the sign immediately places the concern in South San Francisco in his memory.

More of such signs will serve to dress up the industrial zone, advertise the factories there and, incidentally, boost South San Francisco.

## SAVING ON WEAR AND TEAR

**Swift Avenue Crossing Is Badly in Need of Repair; Crossing at Present Means Two Things**

Pavement on Swift avenue across the Southern Pacific railway tracks is in such condition that it is worth sixty days of an automobile's life to drive it across the rails, to say nothing of the physical anguish caused the chauffeur.

Since Swift avenue on both sides of the right of way is constantly under repair by the city, it is to be inferred that maintenance of pavement between the tracks is the job of the railway.

Perhaps officials of that organization are not aware of the condition of the street at that point. They should be invited to ride over the crossing.

## SHERIFF NEEDS MORE HELP

**It Is Hoped That the San Mateo County Grand Jury Will Use Its Influence**

It is to be hoped that the grand jurors of San Mateo county will use their influence to secure additional deputies for the sheriff's office, as requested by Sheriff McGovern yesterday. The crime record of San Mateo county in the past has spoken loudly of the need for more help on the sheriff's force. It is lack of sufficient deputies that has been a handicap heretofore in securing better enforcement of the prohibition law throughout San Mateo county. Even the routine business of the county, it appears, suffers for need of help. And as the population of the county continues to grow, the need for a larger executive force will increase in proportion. Now is the time to move to have the force enlarged.

## OCEAN TRAVEL INCREASING

As a result of the recent immigration act, Europeans coming steerage with the intention of settling in America will be fewer. But tourist passengers among the non-wealthy ranks of both continents will be far more numerous. Shorn of the great source of revenue which the steerage immigrants were, the steamship lines are bending every effort to popularize foreign travel on both continents, offering excursion inducements that are finding great response.

The international benefits that will result from this increase in travel are certain to be tremendous. Friendships, whether between individuals or nations, grow from acquaintance.

Japan and Mexico have negotiated an amity, commerce and navigation treaty which specifies, among other things, that immigration may be limited according to the laws and interests of the respective countries, Mexico being at liberty to study and decide to what extent Japanese immigration is desirable. In view of the uproar from Japan a few months ago when the United States essayed a similar privilege, this treaty may be considered as a generous concession to Mexico.

## BOYS' UNLIMITED PLAY

**FIRST GAME TOMORROW**  
The boys' unlimited basketball team plays its first scheduled P. A. L. game tomorrow afternoon. Morgan Hill are their rivals and a good battle is expected to take place.

The unlimited lineup is likely to be as follows, from the looks of last week's practice: Robinson, center; Dotson, forward; O'Connell, guard; Benne, forward; Fahey, guard; sals, Denman, Kingsland, Rolff, Harris, Beltramel. The men are in good condition and have been putting in some good practice the last few weeks with the 130's and expect to go over big with Morgan Hill.

**CIRCUS HOLDS BOARDS**  
Well, it's here! Not winter, but the high school circus. Tomorrow interest the people have in the evening will show just how much high school activities.

The last few weeks have been spent in hours of tedious work on the part of Miss Linda Gibbs in training the students in their parts for the circus. Really the only way we can show our appreciation is to show in our best.

Let's go, folks, and when you come bring along all of those pennies you have in the cupboard. Show yourself a good time. By all means don't eat too much tomorrow. We will have plenty of hot dogs and all sorts of goodies. All of which will need consumption.

Last fall the school cleared \$120. This year our quota is \$500, and we sure expect to have an overflowing offer this year. Let's show them that South City knows how.

**HEARD IN THE HALLS**  
Signs of relief and exclamations of surprise when the report cards came out last Monday.

"Sleepy Bell" is one of the Mack Sennet Beauties. Oh, boy! For the Junior Fish Pond were suggested Joe Bogie and John Curt.

Discovered at last! The terrible noise in front of the school every day is nothing more or less than the arrival of timid Archie.

Sounds of hammers and saws as Mr. Hunter erects the stairs for the circus. In between are mysterious smothered sounds when

ever someone misses.

One, one; who received a one?

Thrills! Doesn't it give you a wonderful feeling? But the anticipation isn't half what the realization will be. Miss Gibson's high frosh have a side show called "Thrills." Doesn't it sound exciting? That's one place we'll all go to see.

How straight can you throw? Could you swat a member of the faculty or hit a nigger baby every time? There's a chance to show your skill at the high school circus this Friday night.

Like Bathing Beauties? Miss Clifford's gang has Mack Sennet's Girls beaten to a fare you well. Worth the price of admission alone.

See the Circus Parade on Thursday afternoon at 4:30. Floats! Clowns! Stunts! Everything! Lead by the High School Band.

An afternoon program for the benefit of the grammar school children will be given on Friday afternoon at 2 p. m. Admission 10 cents.

## CIRCUS TO FINANCE ATHLETICS

The entire student body, but especially the athletes, are all pepped up over the circus because it means the financing of their games. It costs considerable to fit up a good football or basketball team and pay the expenses. The plan of having an annual circus helps supply a good share of the money to carry on these activities and at the same time furnishes amusement and pleasure for the community as a whole.

Over 800 admission tickets have already been sold, so there is no doubt the community is backing the affair. The tumbling acts begin promptly at 7:30 and are included in the general admission.

Later there will be a big main program, various side shows, dancing, thrills, lots of eats, confetti, whistle. You'll get your money's worth and help our athletic boys and girls, which in turn helps South City on the map. If you

are not at the circus Friday you'll miss a grand and glorious feeling. So come and boost for the high school and at the same time have an evening of entertainment and fun that you will long remember.

Football on the San Francisco Peninsula has just emerged from a tempestuous seven weeks' season which is, in many respects, the best yet enjoyed by the ten high schools forming the Peninsula Athletic League.

**Backfield Men Star**  
Again this was a season of outstanding backfield performers. San Mateo had Anderson; Palo Alto, Smith; Sequoia, Foley; Warren, Berg. Taken all in all, however, in contrast with 1923, league line-men were much better than they were last year and deserved more mention than they received.

For instance, there were the ends of which P. A. L. coaches unanimously picked "Min" O'Brien, San Mateo, and Kerrigan, Palo Alto, for the mythical selections. These men were fast, consistent—as formidable a pair of high school wing men as the peninsula has seen.

McManus, San Mateo, and Disbrow, San Jose, were selected for the tackle jobs by most of the coaches. Disbrow's work was one of the few bright spots in San Jose's rather gloomy picture. Coach Bill Martin, in his first year at the helm of the Garden City prep team, had to start from the bottom up, and Disbrow at tackle was an invaluable spot in the San Jose line. McManus was probably the outstanding line-

man in the league. Fena, San Mateo, and Poole, Sequoia, get the positions at guard. Both men improved greatly over last season's work. Poole played well against Palo Alto in particular.

For center, Lawhe, Palo Alto, has a clear call to the pivot job. Every coach in the league has praise for Lawhe's work. There were other good centers in the P. A. L., but their efforts, though brilliant at times, can't measure up to Lawhe's work.

For All-Class B line, there wasn't any doubt that William Warren had far and away the best back of forwards in the division composed of the six smaller schools of the peninsula. True, South San Francisco had a pair of first-class tackles in Kingsland and Robinson; Mountain View had a fair center, Cook, and a good end, Moore; Santa Clara possessed a potential star, Rockavitch, a tackle; but the Warren forwards for all-round team play could withstand the combined efforts of the best men of the five other schools.

**Smith Valuable Man**  
Although he did not play on a championship team, Nelson Smith, Palo Alto captain and quarterback, practically without exception, has been chosen by the coaches as the most valuable player in the Peninsula Athletic League this year.

FREE AIDING MOVE  
TO SECURE PECK'S  
LOTS MAIL SERVICE

Complying with a petition forwarded by the residents of Peck's addition to South San Francisco, Congressman Free has been active in an endeavor to secure for this locality an extension of the carrier service to this district.

Congressman Free has asked the Enterprise to advise the signers of the petition that he is doing all possible to get this additional service.

CHRISTMAS CLUB  
TO BE STARTED

Everybody needs money for Christmas. Many of us have trouble in providing a sufficient amount to buy all the presents needed when the time comes. The Bank of South San Francisco offers an easy plan to meet such a need. On December 8th it will start a Christmas Savings Club.

Members will pay in a small amount each week of 50 cents and at the end of the time will receive checks for the total amount they have paid to, plus an additional 4 per cent interest. The plan is simple and systematic. There will be different classes for members. For instance, one class will start in by paying 25 cents per week. There will also be classes starting with 50 cents, \$1, \$2, and \$5 per week. Payments must be made promptly every week or in advance for as many weeks as may be convenient.

It will not only prove beneficial to grown people, but will prove very popular with the younger people. The bank is particularly anxious to get every school pupil in this community to take up the plan as a means of teaching the importance of weekly thrift. Small amounts put away regularly and consistently in a very short time assume larger amounts, than those who plan to save in lump sums but never get to it.

The plan is very simple and the details are easily understood when explained. Everybody is welcome to join and the Bank of South San Francisco will be pleased to have those interested call and learn all about it. Those desiring to become members can enroll at any time now. Further particulars appear in the bank's ad in this issue.

Christmas clubs have proved very popular in the Middle West. In Chicago this year \$20,000,000 will be paid by 200 banks to members of clubs. This is a gain of 100 per cent over the 1923 Christmas clubs.

LADIES' AID SOCIETY  
GIVES BENEFIT BAZAAR

Ladies of the Methodist Church gave a benefit bazaar for the building fund on Wednesday in the vacant store building adjoining the Star Restaurant.

Aprons of all sizes and colors were displayed for sale. An attractive candy booth was well patronized and the coffee and cake served were much in demand during the afternoon.

## A CORRECTION

In listing the members of the park committee named by Mayor H. F. McNellis in the meeting of the board of trustees held Thursday evening, November 20, the names of the realtors' division was inadvertently omitted. That division is composed of B. H. Truax and E. C. Peck.

Besides being a capable quarterback, Smith was a dangerous open field runner and the best safety man on the peninsula. He seldom made a mistake in field generalship and showed notable improvement in handling the Palo Alto team over his work in 1923. Without Smith, the Palo Alto team lacked its principal offensive threat.

Choosing the remainder of the All-P. A. L. backfield is fairly easy. Dan Foley, Sequoia, and "Mick" O'Brien, San Mateo, get the two halfback jobs. Foley, defensively, was a fine man to back up the Sequoia line and shone, also, in the position as safety. O'Brien is a fast open field runner and passes well.

For the fullback position, Anderson, San Mateo, was a unanimous choice for the job, even though the Orange and Black star, at this writing, may be declared ineligible. Anderson, plus the crack San Mateo line, brought the P. A. L. championship to the northern city. The big fullback on straight line plunges, could not be stopped by any team in the league.

For the All-Class B team there wasn't much difficulty in lining up the first-class backfield performers. Jack Berg, William Warren, was the outstanding star of the junior loop, probably as good a halfback as there was in either division in carrying the ball. Also, he developed unlooked for ability at drop kicking. Jean Dotson, South San Francisco, was one of the main scoring threats of that team, and fits in nicely alongside of Berg on the mythical team. Muller, Warren, was a better fullback than either Boone, South City, or Miller, Santa Clara, although he did not participate in many P. A. L. games.

In three months this year 209 deaths resulted from automobile and motorcycle accidents on London streets.

## The Big Car Distribution Is Just Starting Get In On It Now!

Right now is the time to get in on the ground floor—to plan on having your choice of these fine cars. Just as we said before, this is not a lottery or a game of chance, neither is it a beauty or popularity affair, but a FAIR and SQUARE offer of AUTOMOBILES, RADIO and CASH, based on competitive sales, to help build circulation for the Enterprise. The reason the Enterprise decided to give away automobiles, radio and cash is because we felt there must be deserving people in South San Francisco and San Mateo county who will be glad to say a good word for the Enterprise, who will be glad to aid the Enterprise in attaining its circulation objective, and who are good enough business men and women to realize the opportunity provided for them. If you are that kind of a person, you are one of those that this offer was made for. Remember, these cars are going to be brand new, and we are going to prepay war tax and delivery charges. They are ready to get in and drive.

## Costs Nothing To Investigate

And it may mean a great deal to you. Mail or bring in the coupon at once. It may be your passport to "better times"—the means of getting more enjoyment out of life. Remember—to get in on this GREAT OFFER takes only a stamp or a trip to headquarters and it doesn't obligate you in any way to send or bring in the coupon. The opportunity of owning one of these cars is certainly worth that little trouble.

## Act Now! Opportunity Is Knocking!

Don't put it off. You may never have an opportunity like this offered to you again. There is no reason for you to delay when merely sending or bringing in the coupon may be the initial means of your owning a big, powerful new car of your own. ## LOCAL PEOPLE ARE ADVISED TO MAIL EARLY

With Christmas as a holiday in the postoffice department throughout the country, the advice given out today to the general public by Postmaster L. G. Hardy, of South San Francisco, is for everybody to send their gifts early if they expect them to be delivered before December 25.

City carriers will only work until 11 a. m. The greatly increased volume of mail from now until Christmas can be handled satisfactorily if the co-operation of the public is extended to the postal employees.

A few of the simple rules which the postoffice department asks the public to follow are:

Prepay postage fully on all mail matter.

Address all matter plainly and completely in ink, giving street addresses or box numbers whenever possible. Place sender's name and address on upper left corner of address side.

Pack articles carefully in strong, durable containers.

Parcels may be marked "Do not open until Christmas," this being permitted in order to encourage early mailing.

Insure valuable parcels. Do not inclose letters in parcels, as doing so would subject entire parcel to letter postage.

Written greetings such as "Merry Christmas," "Happy New Year," those of description may be inclosed with fourth-class (parcel post) mail. Books may bear simple dedicatory inscriptions not of a personal nature. Other written additions subject parcels to letter postage. Communications prepaid at the fourth-class rate by securely attaching the envelopes containing the letters or other written matter to outside of parcels.

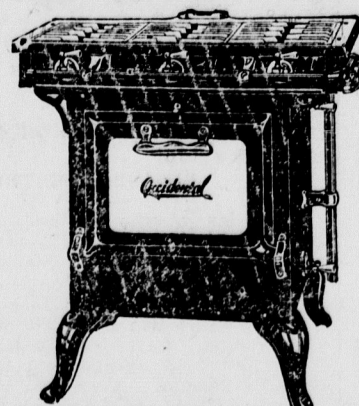

Christmas seals or stickers should not be placed on the address side of mail.

should attract a full house. There is always a welcome for everyone at St. Paul's.

**The Challenge of the Cross**  
Next Sunday night at 7:30 in St. Paul's M. E. church a pageant "The Challenge of the Cross" will be presented by a band of visiting Epworth Leaguers. It will give a delightful and impressive evening program. The public is invited.

Mrs. James Kay, nieces Florence and Evelyn Mayer, and Dr. Thomas Kay saw the picture, "Abraham Lincoln," Saturday evening, after which Dr. Thomas Kay and Miss Evelyn Mayer attended the Masonic ball at the Fairmont.
